## Shadow of Sickle Grows With Chinese Reds' Success

Military authorities have pointed out that Communist expansion throughout southeast Asia would put a succession of unfriendly regimes along our Western Pacific defense line, as shown on map. Present Communist successes in China spotlight the precarious position of countries to the south if Reds win total victory. Most of them are bedeviled now by local Communist agitation and propaganda. Here's the line-up: BURMA (1); newly independent, this former British colony is feared ripe for Communist picking. The country is plagued by civil disorders, and Reds are openly working for seizure of government. SIAM (2); So far has escaped Red violence and seeks to prevent Communist infiltration. Siam fears its large Chinese population will swing to communism once China is under Red yoke. FRENCH INDO-CHINA (3); Powerful revolutionary government of Viet Nam province, reportedly Communist-controlled, is serious threat to rich Indo-China and all southeast Asia. MALAYA (4); Communist bandits have terrorized nation for nearly a year. Ninety-nine per cent of Reds are Chinese. JAVA (5); Communist rebellion last fall hindered Indonesians in their struggle for independence from Dutch. PHILIPPINES (6); After ambush slaying of Mrs. Quezon, government launched all-out campaign against Communist-led Hukbalahap guerrillas who have terrorized Philippines since the war ended.

## AIMING FOR ADJOURNMENT BY AUG. 15

Leaders in Congress Hope To Complete Business By Then

WASHINGTON, May 28—(AP)—Democratic leaders were reported today to be aiming for an August 15 adjournment of Congress—even if several of President Truman's measures are left untouched.

An influential Democrat who asked not to be quoted by name told a reporter the President's assertion Congress ought to stay in session until it passes most of his program doesn't mean that's going to happen.

Despite Truman's statement that everyone of a score or more of his proposals deserves priority rating, there were signs that he may have to be satisfied with final action on a half dozen.

And Senator Taft (R-Ohio) predicted that one of these proposed repeal of the Taft-Hartley act—may reach the President in such form that he will be tempted to veto it.

The senate may take up next week a bill which would repeal most of the Taft-Hartley provisions and restore much of the original Wagner act.

See Substitute

Taft told a reporter he thinks the senate will come closer to accepting a substitute measure he has proposed which makes more than a score of changes in the present law but keeps most of its major provisions.

Besides action on the labor measure, congressional leaders are pushing for a house vote on senate-passed long-range housing and school aid bills.

Because of the illness of Senator George (D-Ga.), the senate probably will delay action on the house-approved Reciprocity Trade measure until it completes the labor bill. The North Atlantic security treaty also remains to be acted upon.

Neither house yet has taken a crack at the President's proposal to boost the minimum wage level.

This program would leave untouched the President's proposals for broadening social security coverage, setting up a system of universal medical care, putting into effect a new farm subsidy plan, enacting civil rights legislation and increasing taxes.

Truman's January requests for price-wage controls and other anti-inflationary measures have been almost forgotten.

## Holiday Events Scheduled In District Over Weekend

Although the weather this week has been far from spring-like and seems more like late October than late May, it is still Memorial day weekend coming up.

Undaunted, local people are making plans for a big two or three days and they have many activities to choose from in picking their recreation.

Memorial day is traditionally the "summer" for many parts. This year is no exception.

Salem Country club's season begins this week. Boating, fishing, swimming, picnicking and tennis top the list.

A full day's program will be held at Lakeview lake, with a large picnic for members' families. A ball game and other contests, along with a catered dinner are scheduled.

A dance tonight, a fast tournament and dinner Monday are on tap at the Salem Golf club, along with the usual weekend tournament.

**Two Polo Games**

In Salem, the local polo team will play a double-header over the holiday at its Elmwood rd. field. Columbus Harbor Hills will furnish the opposition in games at 1:30

## QUINTS NOW 15, HAPPY, HEALTHY AND UNSPOILED

CALLANDER, Ont., May 28—(AP)—The Dionne quintuplets are 15 years old today—intelligent, unspoiled little girls.

They plan a happy family celebration with their parents, Olga and Elvira Dionne, and the other children of the family, Sunday they plan a party in honor of their father.

The girls, Annette, Emilie, Yvonne, Cecile and Marie, still are disinclined to dates and fun clothing. None of them uses powder, rouge or other makeup.

"That will come soon enough," says Sister Almeda Dea Angelo, head of their school. "We want them to stay little girls as long as they can."

They dress alike—usually in dark blue jumpers with bright blouses—and are so amazingly similar in appearance that few can tell them apart, except for Marie. She wears glasses.

The girls go to school in the converted nursery built with money from movie, photo and magazine earnings, and royalties.

Although the school is on the Dionne's property and they pay the bills, ten other neighborhood girls of similar age also attend it.

The quintuplets are in the first year of school now and study from 8:30 a. m. to 4 p. m. under the supervision of their parents' native tongue. The girls understand English but speak it with difficulty.

After school they rush home to the big house and help their mother with the cooking, cleaning and caring for baby brother Claude, just two years old.

None of the girls has yet chosen a career. Their parents insist they will choose for themselves. There have been reports that one or more of them may enter a Roman Catholic convent.

## REAPPRAISAL IS CERTAIN

State Authorizes New Real Estate Survey In County

LISBON, May 28—Columbiana county was one of 21 counties ordered by the Ohio Tax Commission to conduct reappraisals of real estate this year. Auditor Irvin J. Vorndran reported today upon his return from Columbus where he met with the commission.

According to the law, a reappraisal of all real estate must be made every six years, and the state legislature recently made it possible for counties which could not afford to conduct the assessment to do so by issuing bonds to cover costs.

Vorndran stated.

The auditor said the state tax commission in ordering the reappraisal in Columbiana county, threatened to withhold approval of this county's tax abstracts unless the appraisal is started this year.

County commissioners have agreed, Vorndran said, to issue bonds necessary probably in the sum of \$100,000 or \$110,000 to cover the costs of the re-appraisal which will possibly get underway in October.

Although measurements in most of the reappraisals will be conducted this year, Vorndran said, prices will not be figured until next spring when it is felt that property valuations which have been exceptionally high, will have leveled off and become more stable.

Vorndran added he did not anticipate more than an 18 per cent increase in the county's \$100,000,000 property valuations, with the new reappraisal.

## Astry Wins Third Ward Nomination

A final decision in the much-disputed nomination for Democratic Third Ward councilman was made Friday night in the Columbiana county election board's office in Lisbon, when Harold Astry was chosen.

The occasion marked the second recount of the vote, which had ended in a tie between Astry and Wilbur Hamilton. Friday night Precinct 3-A was recounted at Hamilton's request.

The vote showed a 48-48 tie and a coin was tossed to determine the winner. Hamilton called the coin toss incorrectly and lost.

Previously, after a recount of Precinct 3-B, the result had been a 47-47 tie and the coin toss had been called correctly by Astry. However, Hamilton requested another recount on the remaining precinct.

In the 3-A recount, two votes were thrown out for improper marking and two were blank. The change cost each candidate one vote.

All three cars were damaged. The state highway patrol said.

## Canton Killer Prays For Brothers Before Chair Death

COLUMBUS, May 28—(AP)—A Canton killer who spent his last hours praying for four of his brothers serving terms in Ohio penitentiaries went calmly to his execution Friday night.

He was John R. Burson, 33, slayer of Elsworth Ruch, Jr., during a terror spree April 8, 1948.

Burson appeared composed as guards strapped him in the electric chair. He was pronounced dead at 8:12 p. m. Prison officials said the "prosperine" informed the brothers of Burson's execution soon after witnesses left the death house.

The condemned man spent his last days in religious meditation with Rev. C. V. Loefer, Catholic chaplain. He prayed for the four brothers who visited him in death row and for his mother, who didn't see him for three years.

She is a former inmate of a women's prison. A fifth brother is in the state school for feeble minded at Orient, O.

Burson's final brush with the law followed a separation from his wife. He went to the Canton home where she worked as a domestic. Pointing a pistol, he fired up his wife, her employers and neighbors with some children in front of the garage and threatened to kill them.

## MEET TODAY IN SECRET SESSIONS

Believe Bonn Constitution Will Be Urged On All Of German Nation

By The Associated Press

The foreign ministers of the three western powers met this morning in the French foreign office, presumably to polish their plan for a unified Germany. It was an unheralded meeting and was in session an hour before the French foreign office confirmed that it was in progress.

Earlier, observers said the three western representatives—Dean Acheson of the United States, Ernest Bevin of Britain and Robert Schuman of France—were about ready to present their German plan to Russia in the four power conference.

The western blueprint, according to informants, will suggest the Bonn constitution be adopted by all Germany except the industrially rich Ruhr valley. It will also suggest that Russia accept the western occupation statute or something similar for the eastern Soviet zone.

This statute governs relations between the provisional German government and the occupying powers.

Traffic Snarl a Worry

A high American official in Berlin said today that if Berlin's strike-implemented transport snarl isn't untangled soon it may go to the four-power conference for solution.

James W. Riddleberger, the U. S. State department's chief advisor in Germany, said, "The Paris conference can, of course, step in any time and take action."

Brig. Gen. Frank Howley, U. S. commander in the American sector of Berlin said the Communists engineered the situation to help Russian negotiators in Paris. The Russians, on the other hand, contend the western powers are backing the strikers with the same idea.

Elsewhere in the world: Communist fugitive Gerhart Eisler was free today after winning a decision against extradition in a British court. He was reported in hiding. When he was told that U. S. Attorney General Tom Clark had said efforts would be continued to have him returned to the United States, Eisler said, "I expect every Irish trick from them—the house un-American activities committee—and the justice department."

The victorious Chinese Communists, who took Shanghai with comparative ease, now have the problem of running that great metropolis of 6,000,000 persons. It is the largest city to come under Chinese Communist rule.

All United States warships sailed from their anchorages in the Yangtze river below Shanghai.

The Hyde Spring & Wire Co., which has operated in the Detroit area for several years, expect to operate the local plant as a branch for the present and will immediately prepare the building for occupation. Special machinery will be installed in the plant for the manufacture of industrial and agricultural springs. An estimated 15 persons will be employed when operations begin, it is stated.

## The Price of Liberty

There has been an idea ever since World war I thrust the United States into international conflict that the mounting toll of American lives somehow was a betrayal of the original spirit of Memorial day. The significance of honor paid to men who had died in their country's service on foreign soil added a new note to the honor traditionally paid on May 30 to soldiers who had fought in the civil war.

Actually, the new note had been struck almost 20 years before, when men who had fought for the United States in the Spanish-American war were added to the toll of Civil war dead. And some 20 years later, a great group of honored dead would be added from World war II. All this has required an adjustment of feeling. But there has been no betrayal of the original spirit of Memorial day.

Its purpose was to pay homage to those who had made the supreme personal sacrifice for their fellow-men. That is still the purpose of Memorial day, now observed in a vastly larger dimension than anyone dreamed of in the late 1890's when the observance began. It has taken a heavy sacrifice of life to maintain the integrity of this nation, and it may take even heavier sacrifices in the future.

Honor paid Monday is not to individuals but to the bright flame of courage in the hearts of men who fought for what they believed was right. The United States does not have to apologize for the causes it has defended. It has fought always on the side of human liberty against oppression. It must never fight on any other side. Only the price of betrayal of what the United States stands for would be too high to pay.

## Back To Earth

The Rita-Aly affair, as recorded in the public memory, will bear a bloom for some time to come. If the irregularity of the whole proceedings is disregarded, as it always was in the stories of beautiful girls who were swept off their feet by handsome princes, the romance becomes a fee-bopped version of a classic theme.

They always lived happily ever afterward in the stories, but that didn't really mean anything because the stories always ended on the same note of bright hope. The sequels never were written. There were no announcements to marry the big scene. No one ever came back to earth, which was what made such stories popular.

Perhaps Rita and Aly never will come back to earth either. But meanwhile, having survived the romance and the wedding, the rest of us won't have much to do but take home a loaf of bread for supper and hope the Swiss steak will be more succulent than it was the last time.

## Everything According To Law

A federal grand jury's indictment of perjury against Harry Bridges for denying that he was a member of the Communist party when he applied for citizenship in the United States means that the government has discovered new evidence against the Australian-born radical. It remains to be seen whether the new evidence will hold up in court. That was the trouble in the deportation hearings that started 10 years ago—lack of conclusive evidence. The case finally reached the U. S. Supreme court.

The burden of proof rests on the government. It must prove that Bridges lied when he said he was not a member of the Communist party. It must prove that if he was a member of the party that this made him deportable under the law which says an alien may be deported if he believes in overthrowing the government by force or violence, or is a member of any organization that believes in the same thing. Everything must be done according to law. That's the American way.

Aside from legalities, Bridges' point of view is clearly that of a man who doesn't like the way things are done in this country and wants to change them. As head of the Pacific coast C. I. O. longshoremen, he told an audience at Seattle in the late thirties:

"We take the stand that we as workers have nothing in common with the employers. We are in a class struggle, and we subscribe to the belief that if the employer is not in business his products still will be necessary and we still will be providing them when there is no employing class. We frankly believe that day is coming!"

## Great Restorative

Television, we hear, is supposed to mean that radio and the movies as we know them will soon fade from American life. However accurate the forecast, video seems to have had one effect exactly the reverse.

It has pumped new life into that ancient theatrical institution called vaudeville. Television's many variety shows closely resemble the old two-day pattern. And now, perhaps emboldened by their popularity, some daring folk in New York have revived the real thing.

Is it too much to hope that video might bring back free lunches and five-cent auds?

## The Stars Say

For Sunday, May 29  
By GENEVIEVE KEMBLE

SUNDAY'S horoscope favors the regulation and established order of the day, with a stabilizing force on all normal and accustomed interests, pursuits and objectives.

Any deviation from such course has hazards, probably exciting and thrilling, inciting to unusual activity. Be careful in any needful traveling about, experiments or contacts. Adhere to the safe and routine, without taking chances, however tempting.

For the Birthday

Those whose birthday it is, may feel inclined to take chances in inaugurating fresh ventures, experimental efforts out of the ordinary, with travel, romance and radical departures in the picture. All this, however alluring and inviting, carries hazards and penalties. So firmly center the attention, study, work and objectives in the routine and established grooves. Success and due returns should crown diligent and well-directed efforts.

A child born on this day should be serious, dependable, faithful, diligent in established order, although disposed to take chances, or make experiments to its hazard.

For Monday, May 30

MONDAY'S astrological forecast shows a tricky and dubious state of affairs, in which it might be easy to fall victim to snares, pitfalls, or some subtle forms of undercurrents or intrigue, sinister and sordid, although alluring and seductive. Personal affiliations should be realistically handled, as duplicity may arise from glamorous contacts. Strange health conditions should be seriously considered.

If It Is Your Birthday

Those whose birthday it is, may find themselves disposed to prove easy dupes for exceptionally clever plans, lures, entanglements, both personal and in business associations.

Be watchful on all sides for the sordid and sinister wearing glamorous and attractive men. "Look before you leap" into any sort of subtlety and intrigue, keeping realistic and objective in all suspicious circumstances. Safeguard the health from irregular indulgences.

A child born on this day may be an easy dupe of designing personalities or circumstances on the surface public intriguing, alluring. Its physical condition may need supervision or particular insight.

## Severe Infection In Children

By HERMAN N. BUNDESEN, M.D.

Children are the chief victims of a severe infection involving the windpipe, voice-box, and bronchial tubes. Fortunately, this disorder, known as laryngotracheobronchitis, does not occur often because when it comes, it constitutes a grave emergency and one which must be met without loss of time.

The great danger is that the child's supply of air will be cut off because of inflammation and swelling of the air passages and the great amount of affected material which collects in them.

## Dry Cough

This disorder comes on suddenly with a dry cough and fever, which may vary in severity from 100 to 105 degrees. Usually, the difficulty in breathing is evident from the start and it may rapidly become worse.

Sometimes, the blocking of the air passages may be so complete that it is necessary to make an opening from the outside into the windpipe in order that the patient can breathe. When faced with such a condition as this, the best thing parents can do is to get the child to a hospital at once. There he can be placed in an oxygen tent, in which the air is kept cool and moist. This will help to prevent the formation of crusts in the windpipe, which would, of course, block breathing.

## Lining Membrane

If it is necessary to cut into the windpipe, care must be taken not to damage its lining membrane. However, where the disorder is discovered early and treated promptly, this operation will usually not be necessary.

Of course, the infection itself must be treated with either penicillin or the sulfonamide drugs, depending on the type of germs causing the infection. Recently, streptomycin has been used with good results in the type caused by influenza germs.

It is also important to make sure that these patients are not suffering from diphtheria. This can be done by making a culture from the nose and throat.

It is believed that dry, indoor air may be one of the things which may lead to the development of the disorder. Such air dries out the lining membrane and allows germs to get into the tissues, thus producing inflammation.

## QUESTIONS AND ANSWERS

ANXIOUS: Will you please tell me something about hyperthyroidism? Can it be cured?

ANSWER: Hyperthyroidism means increased activity of the thyroid gland, with the formation of an excess of the substances secreted by the gland. In most cases of thyroid difficulty, the secretion thrown out by the gland is toxic or poisonous to the system. The treatment for the condition depends upon the type present and its severity. Medical treatment brings about improvement in many cases; in other cases, an operation is necessary. This condition can be cured.

## G-E PLANNING TO TALK WAGES SOON

NEW YORK, May 26—(AP)—The General Electric company, which traditionally sets the pay pattern in the electrical manufacturing industry, has agreed to reopen wage talks with the CIO United Electrical workers early next month.

The union today awaited a reply from the Westinghouse Electric corporation to a demand for the conferences.

On Wednesday, the union called on G-E and Westinghouse to set dates for wage conferences affecting their 215,000 employees. Yesterday, G. H. Pfeil, G-E manager of union relations, suggested the talks commence June 7 or June 14.

A Westinghouse spokesman said in Pittsburgh last night that his company had not answered the union's letter yet. He declined further comment.

G-E Vice President L. R. Boulware promised to consider the union's demands fairly, but repeated that the company is opposed to a fourth round of wage increases.

The union seeks a \$500-a-year "package" for all its members in

the industry. This would consist of combinations of direct wage increases, pensions, shorter hours, benefit programs and other contract improvements.

G-E and Westinghouse contracts with the union, which do not expire for another year, allow the union to reopen the wage issue. The present average wage is \$1.50 an hour, the union says.

## Mt. Union's Summer School Opens June 6

ALLIANCE, May 28 — Mount Union college, organizer of the first summer school in the United States, will begin its 68th summer session on June 6, with two five-week terms running to Aug. 12.

In 1869, Thornton Csanaf, then a student at Mount Union, suggested this type of school to Orrville Hartshorn, president and founder of the college. Part-time students who were teaching could attend college to obtain their degree. The summer of 1870 saw the first college summer school in the country approved by the president of Mount's board of trustees, Lewis Miller of Akron, who also organized the well-known summer session at Chautauqua, shortly thereafter, both for the same purpose, adult education.

The present type of summer school replaced the old in 1900. New students from other colleges not having summer school may attend Mount as well as those students wishing to graduate in three years. Also, teachers needing hours for a certificate may attend.

## The Nation Today

By JAMES MARLOW

WASHINGTON—(AP)—When a man is being educated with government money, how far should the government go in trying to find out whether he's a Communist?

That's one of the important questions emerging from the present rumpus over the way the Atomic Energy commission does things.

Congress is investigating the AEC now. It all started this way:

Because this country badly needs the best scientific brains it can develop in the field of atomic energy, congress has voted the AEC millions of dollars to encourage and help educate outstanding young men.

THE WORK they're picked to do is of two kinds: Secret work for the government in the field of the atom; or non-secret work, using some product of the atom, such as in cancer research.

The AEC itself doesn't do the picking. It leaves that to the National Research council, made up of distinguished older scientists who can judge the talent of the younger men.

The council has been primarily interested in a young man's brains, not his political beliefs, and it combs the colleges for the best scientific minds it can find.

A young man chosen for secret work doesn't get the job unless the FBI checks and is sure he's not a Communist. If he's chosen for non-secret work, there's no FBI check.

This month the senate discovered that a young scientist chosen for an AEC fellowship in non-secret work was a Communist. That started the storm.

Senators questioned David E. Lilienthal, chairman of the AEC, about this case. He said he does not think the government should spend money educating a Communist, but—

He indicated opposition to the idea of an FBI investigation of young scientists chosen for non-secret work. (Everybody is agreed for the need of an FBI check on people doing secret work.)

But—if Lilienthal is opposed to letting a Communist get government money for an education, how can such a Communist be spotted without an FBI investigation?

LILIENTHAL AND representatives of the Research council say now that in the future any fellow doing even non-secret work will first be asked to take an oath of allegiance to this country and swear he is not a Communist.

Several senators—particularly Republican Senator Hickenlooper of Iowa, who thinks Lilienthal ought to be fired—said a loyalty oath

isn't enough, that an FBI check is necessary.

If an FBI probe starts in this field, simply because government money is being used although no secret work is involved, it's the first step toward opening the door to the FBI in other fields of education.

Dr. Alfred N. Richards, president of the National Academy of Sciences, said this would introduce into our system of education "a type of governmental interference which is not too far away from what the Nazi had and what the Russians have now."

## Through the Years with Salem TO THE LADIES

No story of Salem would be complete without some mention of the fine women whose work, less spectacular perhaps than some of the achievements of their men-folk, nevertheless contributed greatly to the progress of the little town. Despite household duties which ranged from the manufacture of soap and the making of most of their family's clothing to the canning of almost unbelievable quantities of fruits and vegetables, they somehow found time to work for churches help organize schools, and take part in every worthy project that would lead to the betterment of the village. Down through the years has come a splendid tradition of service to the community, a heritage to which Salem women of today are continuing to add.

The Brooklyn Dodgers and New York Yankees are the hottest teams in baseball as the pennant races swing past the quarter pole.

At the end of the first six weeks of the 24-week major league season, the Dodgers are tied with the defending Boston Braves for the National lead. The Yankees enjoy a solid 4 1/2 game edge in the American.

It took the youthful Brooks a time to get rolling, but they slithered through the west on their first long road trip. Back home at Ebbets field last night, they moved up even with the Braves by beating the Boston ace, Johnny Sain, 4-0.

Preacher Roe, a not-so-youthful Dodger, turned in his second straight shutout with the help of a four-run seventh inning against Sain who struck out nine.

The Brooks had a battle on their hands with Sain before notching their eighth win in the last 10 games. It was 0-0 until the seventh when Gene Hermanski, who hits Sain like he owns him, bloomed a single to start a rally. A sacrifice and Carl Furillo's single scored Hermanski. A walk and Al Dark's error loaded the bases before Spider Jorgensen came through with a three-run double.

Poor pitching—a familiar ailment—cost the New York Giants a chance to take over the lead. Clint Hartung failed to get past the third inning as the Phillies clubbed five Giant throwers for 14 hits and a 9-3 victory.

Al Brazle and Eddie Kazak double-teamed the Pittsburgh Pirates to clinch a 2-1 St. Louis decision. Brazle scattered nine Pirate hits and Kazak hit a homer off Murry Dickson with a man on base to account for all the Card scores.

Dickson, who beat the Cards the first time he faced his former manager April 27, suffered his sixth straight setback and seventh of the season.

Johnny Niekema made it a clean sweep for the southpaws in the National by pitching the Chicago Cubs to a 3-1 edge over Cincinnati. Emil Verban was the big wheel for the Bruins with a double and two singles.

Eddie Lopat, top pitcher in the American, continued to reverse his normal spring form with a fifth straight victory. Usually Ed doesn't start to win until hot weather time.

The Yankee southpaw blanked the second-place Philadelphia A's with six hits, 3-0. It was the seventh Yankee victory in their last eight starts all at the stadium.

Tommy Henrich eased Lopat's task with a two-run homer off Joe Coleman in the first inning. It was No. 9 for old reliable Tommy. Yogi Berra added the other Yankee run with his fifth homer in the fourth. Between homers, Coleman struck out seven.

Cleveland started its season again with a mock "reopening day" and got off on the right side of the ledger with a 4-0 whitewash of the Chicago White Sox.

Al Benton, purchased from Sacramento in April, did a better job than Bobby Feller did on the real opening day. Benton, 38-year-old Detroit castoff, threw a six-hitter.

Detroit returned home from a poor eastern trip to break a six game losing streak with a 5-4 edge over St. Louis. Despite Dick Kokos' eighth homer, Virgil Trucks squeaked home with his sixth victory. He struck out eight men, seven in the first four innings.

Rain washed out a scheduled night game between Washington and Boston.

With Major Hoople

SAH! YOU NINNIES KNOW BY NOW THAT A HOOPLE NEVER QUITS—I'LL MARCH AGAINST THOSE EVILS UNTIL MY FEET BLEED—BUT I MUST FIND A SANER TACTIC THAN GOING TO JAIL!

THE 1948 American League pennant and the World Championship banner were raised and Manager Lou Boudreau was then called to the plate to accept "best wishes for the 1949 season" from William Harbridge, president of the American League.

The 33,235 chilled fans had no particular reason to expect a "new look" from the Tribe. The same team took the field that lost 10 out of 12 in the recent road trip.

Al Benton, 38, a veteran of 21 years in pro ball, took the mound.

Benton, recently purchased from Sacramento of the Pacific Coast league to help the Tribe's crippled staff, scattered six singles.

Behind Benton, the Tribe infield manufactured three thrilling double plays, and Larry Doby robbed Chicago's Floyd Baker of a sure double with a sparkling catch.

At the plate, the Indians got only eight hits off Bill Wright, Chicago's star lefty, but one was a triple by Jim Hegan, and Mickey Vernon, Doby, and Ken Keltner contributed doubles.

The extra basers by Vernon and Hegan and a single by Dale Mitchell scored two runs in the third inning to clinch the game.

## INDIANS 'ARRIVE', GET BIG WELCOME, HOPE AND VICTORY

Whitewash Chicago 4-0 In 'Opener' Before 12,000; Wynn Goes Today

CLEVELAND, May 28 (AP)—It's swell to be home again for the Cleveland Indians and today they go after their second straight over the Chicago White Sox.

Early Wynn, victor in one of the Tribe's two road trip wins, pitches last night's 4-0 whitewash of the Pale Hose. Howard Judson, youthful fireballer, pitches for the Sox.

Maybe it was effervescent optimism of Tribe President Bill Veck, or the tremendous ovation 12,000 fans gave the fired Indians at the railroad station, or it could have been simply the magnificent six-hit pitching of Al Benton, but last night the Indians looked like World Champions again.

Veck said it would be another "opening day" and it was. Pre-game ceremonies were a neat duplicate of the festivities which preceded the "official" opening day against Detroit April 22.

Mayor Thomas A. Burke repeated his toss of the first ball after four bands circled the field playing "Happy Days Are Here Again."

### Yeager Fails To Make State Track Finals

Roy Yeager, Salem High qualifier in the state 440-yard dash at the district meet here last week, failed to qualify for the finals at Columbus Friday afternoon.

Yeager's best time here was 52.9, which apparently was off the pace set yesterday. The best qualifying run at Columbus was turned in by Ron Myers of Gallon, 50.6 seconds.

Yeager was the only Salem man entered at Columbus.

## Women's Bowling Stint About Done

COLUMBUS, May 27 (AP)—The Women's International Bowling congress tournament is in its final week of a 41-day marathon here—and a compilation of scores today showed the Mario restaurant team of Chicago has been the outstanding quietest.

It's fifth in the team standings with 2735, but when computation is made for "team all events," Mario comes out on top. The WIBC doesn't recognize a team all-events champion, as does the men's counterpart, the American Bowling Congress.

Mario got to the top mainly because Cecilia Winandy was able to shoot the tournament's sole 1000 series and take the all-events lead. The rest of the team members did all right, too. The team had a total of 2682 for its doubles scores and went on for 2953 in the singles. That adds up to 8730.

Second in the team all-events goes to Gears by Enterprise of Detroit, current leaders in the team event with 2786. The Gears team hit 2793 in the doubles and 2766 in the singles for an 8345 total.

Third falls to the E & B Beer team of Detroit with 8186. The ABC team all-events trophy also was won by the E & B men's team with a score of 9040.

Deming Defeats Amvets In Class A Batting

Deming defeated the Amvets 3-0 in Class A play at West End park Friday evening as the Lisbon VFW, going all-out, pasted the Igloo 21-3 in a five inning tilt.

In another scheduled game neither of the teams showed up. The Salem Diner and Saxons both failed to appear, Joe Kelley said.

In Class B batting at Centennial last night Bliss won 10-0 over the Legion and the Panthers won 12-3 from Kuenzels.

Radar Car Tags 65 Speeders At Leetonia

LEETONIA, May 28 — Seventy-five per cent of the drivers checked here Thursday were tagged as speeders through a school zone, with 35 north-bound and 30 south-bound cars stopped in a 40-minute test period.

Marshal Henry Gibson and Sheriff Howard Clark utilized the radar-equipped sheriff's department car on Walnut st. beside the High school.

Only warnings went to those exceeding the 20-mile law yesterday. The check was made between 3:15 p. m. and 3:55 p. m., the time that school children are dismissed for the day.

Gibson said that two police cars and local and county peace officers were used in this first test. He added that the radar-car will be in Leetonia periodically at which time

both school zones and other street traffic will be checked with court fines being imposed on law violators.

The state highway patrol which reported the accident said fog apparently obscured the vision of the car's driver. The impact of the New York Central freight hurled the automobile against another car injuring two other men.

They were: James Kent, and Frank Rorick, both of Bucyrus. They were hospitalized.

Truman Reviewing Plans For State Department's Organizational Switches

By JOHN M. HIGHTOWER

WASHINGTON—(AP)—President Truman is finally reviewing plans for the top level shakeup in the State department and an announcement of a lengthy list of changes is due shortly.

Under the reorganization previously authorized by congress in line with Hoover commission plans, Secretary Acheson and Undersecretary of State Webb are being given a total of 10 assistant secretaries of state. Two will be specially designated as "deputy undersecretaries."

Five new assistant secretaries are slated for appointment and five old ones remain in their present assignments, according to the plans laid before Truman for final approval.

The five new men are:

Edward G. Miller, New York attorney in the firm of Sullivan & Cronwell and a former State department official and assistant to Acheson. He will be assistant secretary in charge of Latin American affairs.

New Men Added

George W. Perkins, former vice president and Director of Merck & Co., Inc., New York, and presently director of the industry division of the ECA office in Paris. He is to be assistant secretary in charge of European affairs. Perkins was described by officials here as a Republican. The assignment earmarked for him is one of the key posts in the new State department setup since it would give him policy direction and operating control over European affairs in the department.

John D. Hickerson, present director of the office of European affairs and a veteran diplomat, to be assistant secretary in charge of United Nations affairs.

W. Walton Butterworth, presently director of the office of Far Eastern affairs, to continue substantially the same duties but with greater authority as assistant secretary for Far Eastern affairs.

George McGhee, a career government official who has directed the Greek-Turkish aid program in State department for more than two years, to be assistant secretary for Near

Eastern and African affairs. This was the job which President Truman offered to Dr. Ralph J. Bunche, the Negro diplomat who made peace in Palestine. Bunche turned down the appointment at a White House meeting with Truman yesterday.

Among the five assistant secretaries remaining in the present jobs, John E. Peurifoy is slated to be named by Acheson as deputy undersecretary for administration, and Dean Rusk to be named deputy undersecretary of political affairs. This will give Rusk general supervision over the four assistant secretaries responsible for American foreign policy in the four major geographical areas of the world.

George Allen remains as assistant secretary for public affairs; Ernest Gross as assistant for congressional relations and Willard Throp as economic assistant secretary.

Charles Saltzman, who formerly was assistant secretary for occupied areas—Germany and Japan—is

resigning, it was reported. George Kennan, Russian expert and chief policy officer in the department, is eventually to be named department counselor in which task he will continue his high-level, long range policy shaping. In that job he will replace Charles E. Bohlen, regular foreign service officer who will become minister and counselor of embassy in Paris.

DECORATION DAY

Today we join in humility before the great sacrifices that our neighbors and countrymen made in defending our way of life. We are reminded of the debt that all of us owe to them . . . a debt to be paid not only with monuments and wreaths, but with our determination to perpetuate and protect the way of life for which they fought so valiantly.

We join in celebrating this great event as a symbol of our will to preserve our American heritage of freedom.
